

# Compliance & Electrical Safety Certificate

This form has been designed to be used by licensed electrical workers to certify low voltage installations or part installations that comply with Part 2 of AS/NZS 3000 and are safe to be connected to a 230/400 volt multiple earth neutral (MEN) system of electrical supply.

<b>Unique ID:</b>	5388
-------------------	------

## (1) Location of installation

Address:	32 Melville Street, Ashbury NSW 2193
----------	--------------------------------------

## (2) Customer Information

Name:	JaneRivers
-------	------------

Postal Address:	32 Melville Street, Ashbury NSW 2193
-----------------	--------------------------------------

Phone:	0412345678	Email:	
--------	------------	--------	--

## (3) Electrical Worker Information

Name:	John Freemason
-------	----------------

Registration/Practising Licence Number:	
---	--

Organisation:	Johns Electrical
---------------	------------------

Telephone Number:	0421 123 123
-------------------	--------------

Email:	JohnF@email.com
--------	-----------------

Name of person(s) being supervised:	
-------------------------------------	--

## (4) Work Details

The work is:	
--------------	--

The prescribed electrical work is:	
------------------------------------	--

Number of lighting outlets:	Number of socket outlets:
-----------------------------	---------------------------

Number of ranges:	Number of water heaters:
-------------------	--------------------------

Type of supply system that the installation or part installation is safe to connect to:	
---	--

The work has been done in accordance with:	
--	--

Which parts of the installation, if any, are safe to connect to a power supply:			
Was the work required to comply with standards other than, or in addition to, Part 1 or Part 2 of AS/NZS 3000			
What was the additional standard used?			
The work includes:			
Other Work?			
<b>(5) Certification of Work</b>			
I certify that the completed prescribed electrical work to which this certificate applies, has been done lawfully and safely and the information in the certificate is correct in that the installation, or part of the installation:			
Electronic reference:			
<b>Test Results:</b>			
Polarity (independent earth):			
Insulation resistance:			
Earth continuity:			
Bonding:			
Other (specify):			
Name:	John Freemason	Registration Licence Number:	
<b>Electrical Worker's Signature:</b>			Date: 28/08/2013
<b>(6) Electrical Safety Certificate</b>			
I certify that the installation, or part of the installation, to which the Electrical Safety Certificate applies is connected to a power supply and is safe to use			
Which part does this ECS relate to:			
Name:	John Freemason	Registration Licence Number:	
<b>Electrical Worker's Signature:</b>			Date: 28/08/2013
